

7/2/24

To: Oliver County Commissioners

I am writing in support of the CO2 zoning ordinance that was recommended for Commission approval by the P&Z board last week.

It is very important that we have clear guidelines for development of CO2 projects in the county, preserving the excellent agricultural and residential lands that we have, while allowing industry to prosper.

The Commission has a history of providing guidelines for the development of industry by issuance of ordinances, such as the wind ordinance – allowing responsible development.

Please approve the ordinance as written.

Sincerely,

Handwritten signatures of Kurt and FayE Swenson. The signature on the left is 'Kurt' and the signature on the right is 'FayE'.

Kurt and FayE Swenson
